

# Aging in Place with Confidence: What You Need to Know

A Guide for Families Wanting Their Loved Ones to Remain at Home Safely

# Supporting Independence with Safety

Aging in place is a powerful desire for many older adults —but it requires the right support systems to ensure safety, dignity, and health.

**This guide explores what it means to age in place successfully and how Caresify's comprehensive Circle of Care™ services can make that a reality for families.**

# The Essentials for Safely Aging in Place

- Home safety modifications (e.g., grab bars, fall-proof flooring)
- Regular health and medication monitoring
- Mobility and transfer assistance
- Proper nutrition, hydration, and hygiene
- Emotional support and companionship
- Reliable transportation and emergency access
- In-home technology (e.g., health hubs, tablets, and smart alerts)

# How Caresify's Circle of Care™ Supports Home Living

Our programs are designed to work together or separately based on your loved one's unique care journey. Whether through daily personal care, fall prevention, cognitive support, or wellness activities, Caresify provides a full spectrum of services that promote safe, enriched, and independent home living.

# Modifications & Services That Enable Independence

We help families implement simple yet powerful changes in the home environment and care plan, such as:

- **Personalized Care Plans:** Tailored to medical, emotional, and physical needs
- **Caresify360™:** Smart devices that track vitals, offer medication reminders, and support video calls
- **CARE Activ™:** Life enrichment program offering painting, museum visits, and more
- **CDSP™:** Specialized dementia care with trained caregivers and memory routines

# When to Layer in Additional Support

Knowing when to bring in extra help is key.  
**Caresify** offers transitional and preventive programs:

- **CAP – AfterCare Program:** A 40-hour care bundle over 30 days post-hospital discharge to promote recovery
- **SAFE Steps™ – Fall Prevention:** Daily safety routines, caregiver training, and environmental adjustments
- **Post Diagnosis Care –** For clients with new diagnoses, our social workers connect families with resources and services
